Permitted Book World 12-22-68

Apparently the editors of BOOK WORLD felt Jim Bishop's new book, *The Day Kennedy Was Shot*, was of sufficient importance to warrant its review on the front page of the Nov. 24 issue.

Therefore, it is unfortunate that the editors permitted the reviewer, Edward Jay Epstein, to use most of the space to discuss — not the Bishop book, but his own book and his personal views on the Warren Commission and its findings.
